Join MASA for an informative half-day workshop!

A Focus on Technology: Data Security, Network Connectivity, E-rate Relevance
Led by MOREnet (Missouri Research and Education Network)

Is your data secure?

How much do you know about Cyber Security and what you can do to protect your organization's data and resources? Even though we read about breaches and attacks on a daily basis, many organizations still believe that it "can't happen to us." In reality it's not if, it's when. Some of the things we'll be discussing in the upcoming workshops are:

- » Why Cyber Security is important and what can happen if your organization is the victim of a data breach or target of an attack.
- » Get rid of the low hanging fruit -- Key things you can do or be aware of to help secure data and resources... i.e. Strong Passwords, Email Security, Mobile Device Security and Physical Security.

Managing your Network Connectivity

How many times have you asked? Is my network current? How do we plan for 1-1 wireless? What can my staff do to better manage our Network? How much bandwidth do I need?

As a technology partner to schools, MOREnet has helped many districts with these challenges. We will discuss:

- » How to best leverage your E-rate dollars to improve your network.
- » Where to focus your network resources so you have a robust and reliable network to meet your teaching and learning needs.
- » What tools can help your staff better manage the network and the bandwidth you currently have.

E-rate Relevance

E-rate funding has been available since 1998. Significant changes to the program will impact every applicant beginning in 2015. This session will provide the information required to identify new funding opportunities, understand the program going forward and list available resources for success.

DETAILS:

Workshops will be held from 9 a.m. - Noon and will be the same at each location.

March 3 - Clinton High School Media Center
1106 S. 2nd Street, Clinton

March 5 - Troy R-III Central Office, Powell Conference Room
951 West College, Troy
