Tackle A Chance On Me

By Roger Katz, MASA Executive Director

In 1979, I took the chance of leaving Larry Feltham, then superintendent of the Jefferson City School District, to take a chance on me. Larry taught me a lot about the inner workings of school administration for three years before I was taken over by Superintendent Chris. Chris taught me a lot about the fine art of selling school administration and school school board members. It was a great experience.

Over the years, there have been several people who have taken a chance on me, and I will never forget them. Each taught me something different, each brought out the best in me. I will never forget the difference each of them made in my life.

In 1985, I took a chance on a young, up-and-coming reporter who was writing for the Missouri State Capitol News Bureau. His name was Robert Slater, and he was teaching at the Missouri School of Journalism.

It was my first job out of college and I was a staff photographer and regional reporter. I learned a lot from Robert, and I learned a lot about the newspaper business. I will never forget the difference he made in my life.

In 1999, I took a chance on me to help him continue to move the organization.

And then in 2008, Gary Sharpe became superintendent of the Missouri State Capitol News Bureau. He has been an absolute delight to work with.

As an executive, I, and Robert, have spent a lot of time together, and it has been a pleasure to work with him.
