Missouri Association of School Administrators
Thursday, March 31, 2016, 10:00 am - 11:30 am

Live Radio Broadcast

Issues in Education

Roundtable Discussions
with Leaders
in Education

'Issues in Education' is designed to provide a meaningful voice to educational leaders on the topics that affect 21st century learning in our schools and across all markets.

Created by Ittner Architects, these important conversations are aired live on KTRS Radio and videotaped to later serve as a valuable resource.

Ittner Architects is known as a pioneer in school design having completed over 4,500 projects since 1899. Today Ittner is involved with advancing education, working with PK-12, higher education, healthcare, corporate training, conference centers, and many other fields. As a leader in designing 21st century learning environments, We believe there is no more important topic to the success of our kids and our economy than education.
