It’s Time to Start Thinking About Your Bond Proceeds Investments

MASA members may add to the excellent of their schools by investing in projects that will benefit their students. This is an important way for you to start thinking about how your bond proceeds can be used to improve your school district.

Beyond simply thinking of a project for which you might invest your bond proceeds, it is important to start thinking about how you might invest in projects that will benefit your school district. This includes projects that can be used to support your school district in a variety of ways.

In order to meet immediate liquidity needs for a specific draw schedule, you need to make sure that you are assessing your draw schedule, taking into consideration the criticality of managing your liquidity needs. This includes considering the importance of aligning your liquidity needs with your draw schedule.

The MASA MasterCard® Commercial Credit Card is intended for districts requiring 10 or more cards. Central Bank also offers the MASA MasterCard® Business Card, which supports entities by keeping a close eye on your draw schedule, taking into consideration the importance of aligning your liquidity needs with your draw schedule.

For more information on how to start thinking about your bond proceeds, please be sure to visit the “Resources, News & Publications” tab at www.masaonline.org. If you have any questions or need additional information, please contact Doug Hayter at MASA. Phone: 573-638-4825. Email: doug.hayter@mcsa.org.

MASA MOSPRA Spring Conference, March 25-27

What do MASA members want from their Spring Conference? Past surveys show the answer is meaningful keynote speakers, and both formal and informal opportunities to discuss the top issues in education. The 2020 MASA/MOSPRA Spring Conference, set for March 25-27 at the Lodge of Four Seasons, Lake Ozark, will meet all of these needs.

With more than 80 special breakout sessions on a wide variety of topics, including budgeting, leadership, communication, public relations and community relations, school finance, mental health, and innovative and efficient practices, attendees will have the chance to network and gain improved skillsets. Among the keynote speakers are the MASA MOSPRA Administrator of the Year, Dr. Bruce Baker, University of Missouri-Kansas City, and MASA MOSPRA Administrator of the Year, Dr. Margaret Vandeven, Kansas City. This year’s conference will feature keynote speakers, including several MASA MOSPRA Administrator of the Year winners.

The Thursday Lunch will feature the MOSPRA Administrator of the Year. The Friday Lunch will feature the MOSPRA Administrator of the Year. The Saturday Lunch will feature the MOSPRA Administrator of the Year. The Sunday Lunch will feature the MOSPRA Administrator of the Year.

Pre-Conference Session: Crisis Communications

The Aspiring Superintendents Session, set for March 25, is separate from the conference. The Thursday Lunch will feature the MOSPRA Administrator of the Year. The Friday Lunch will feature the MOSPRA Administrator of the Year. The Saturday Lunch will feature the MOSPRA Administrator of the Year. The Sunday Lunch will feature the MOSPRA Administrator of the Year.

While taking time to attend the Aspiring Superintendents Session, you will have the opportunity to learn from the experiences of the newer superintendents. This is one of the rare times where school leaders can gather to discuss common issues and challenges that they face. Getting the perspectives of these veteran leaders as well as the insights of the newer superintendents benefits everyone. At this time, there is no time to lose; you need to know what matters to you.

Taxation Changes, Taxation Credits, Vouchers, and Charter Schools All on Tap for 2020 Legislative Session

As things have changed in the past 15 years. Some of the most important challenges we face include the introduction of the smartphone and the Internet, and changing family structures. Our nation’s public schools and the education system that supports them have struggled to adapt to these changes. At the same time, the educational landscape has transformed. For example, the federal government has increased its role in education, and states have taken on greater responsibility for local school districts.

I am passionate about our education system and I believe that we should continue to support it. As a teacher, I have always been committed to improving the education of students. I have worked hard to prepare my students for success in life. However, I believe that we must also support our schools by providing them with the resources they need to continue to provide a high-quality education.

One of the ways to achieve this is by increasing funding for public schools. This is important because our schools are the foundation of our society. They are where we teach our children about civic responsibility and democratic values. We must ensure that our schools are adequately funded so that they can provide a high-quality education for all students. I believe that we should support measures that increase funding for public schools, such as raising taxes or increasing government spending.

As a member of the Missouri State Teachers Association (MSTA), I have been actively involved in supporting our schools. I believe that we must continue to work to ensure that our schools have the resources they need to provide a high-quality education for all students. I am proud to represent you, and I am committed to working hard to make sure that our schools are successful.

If you have any questions or concerns about education in Missouri, please don’t hesitate to contact me. I am always available to listen and to help.

Sincerely,

[Your Name]
