

Role of School Safety Coordinator/Director

This roundtable of safety coordinators/directors, school administrators, and board members will discuss the importance of safety personnel and how collaboration on safety initiatives can enhance the climate and culture of the school environment

Missouri School Improvement Plan 6 Standard

Section L10-The school system actively addresses school safety and security in all facilities.

- A. The school system, in consultation with public safety officials and stakeholders, develops, implements, and reviews annually a comprehensive school emergency operations plan for the school system and each school or site as applicable.
 - 1. The plan broadly addresses safety, crises, and emergency operations.
 - 2. The plan addresses prevention, preparation, operations, and follow-up.
 - 3. The plan includes consideration of supporting mental health needs of all involved in any crisis.

- B. Local board policy requires the school system to employ a designated safety coordinator who demonstrates knowledge of all federal, state, and local school violence and prevention programs and resources that are available to students, teachers and district staff.

Missouri School Improvement Plan 6 Standard

- C. The school system annual conducts a physical security site assessment at each facility, utilizing nationally recognized accepted methodology.
- D. The school system ensures emergency preparedness drills are performed in compliance with state statute and local ordinance.
- E. The school system implements a cyber/privacy security plan, utilizing nationally accepted standards.
- F. The school system ensures access to Missouri's school violence anonymous reporting tip line. (Courage2Report MO)
- G. All school system staff participate in relevant school safety and violence prevention training.
