It was a great few days with the @SDofWashington building and district leaders at this years June Leadership Retreat! Thank you for the fun, collaboration, and foundation building for next year. #wearegettingready

Keep All Meetings Interactive

- ❑ Begin with Warm Up Activities/ “Family Fun” – These are not a waste of time. They should focus on the topic of the session.
- ❑ Plan for interaction and exchange of ideas for each meeting.
- ❑ Focus on sharing the data to show results! Data is motivating!!!
- ❑ Invite others to lead portions of the leadership meetings.
- ❑ Close each meeting well. Getting to closure and planning for next steps keeps momentum going! Actions must be seen and results noticed.

What are the identified strengths?	How do you know?
What are the identified areas for growth?	How do you know?

Data Discussion Protocol

Data Discussion Protocol

Review the Data: Review the data and take notes.

Describe the Data: What do you see? What do you not see? Be objective.

Interpret the Data: What does the data suggest we celebrate or not celebrate? What are the assumptions we might make given the data?

Implications: What must we now do, explore, and/or question as a result of this exercise?

Reflection: What questions arose for you regarding the data, this process, etc.?

Now What: What are your next steps regarding the data, this process, etc.?

Results of Leadership

“When your tenure is over and you pass the mantle on to someone else, you want that person to be able to say, ‘There was a person who helped us see how great we could be, and who laid the foundation for our great leap forward.’”
