From everyday communications to crisis communications, School PR pros must know how to talk to local media representatives. Effective and regular communication with the media will not only help you tell your stories through local newspaper and TV, but those relationships will pay dividends in a crisis situation.

Will There Be Any Five-Day Week Schools In Five Years? Let's Talk the Politics of the Shorted School Week

3:30 - 4:30 pm **Valencia B**

Jon Turner, Missouri State University

The four-day school week was once a trend primarily in small rural school districts, but that is quickly changing. With over 1/4th of Missouri public schools now using the four-day school week, and with larger suburban school districts now considering the shorted week, how will this play out in the years to come? A candid panel discussion with school and political leaders to answer the question, "If we all become four-day week districts---what's next?"

Student Voice Matters – and the Analytics Prove It

3:30 - 4:30 pm **Seville Room (formerly Kidtopia)**

Kelly Wachel, Samantha Fitzgerald, Traci Todd Murphy and Paul Lewis, Park Hill School District

Giving students an iPhone and having them document their day; students writing for district publications; and student reflections about their work. These opportunities for students – backed by research, planning, implementation, and evaluation – are proving to be our most engaging content. Student voice and student advisory teams are the answer to navigating our work. See our "day in the life" series to see how amplifying student voice drives engagement.

The 5k Calendar (Race, Restore, Recover, and Rest)

3:30 - 4:30 pm **Granada B/C**

Brian White and Mitch Nanney, Meadow Heights R-II School District

A simple calendar change can become the vehicle and basis for a major philosophical shift, a shift from accountability and compliance to actual responsibility. Teachers stop chasing. Students start owning. Wills are measured and skills are recovered. Lastly, grades are restored, and each new quarter starts with students and staff rested and ready for the next 5k.

Beyond the 8:00-3:00: Empowering Learners Through Their Families

3:30 - 4:30 pm **Club Room (formerly Escollo)**

Samantha Hamilton, Neosho School District

Schools have attempted to engage high-need families through parent nights, conferences, family nights, etc. Many times, the ones needing the resources are not the ones reached. In this session, you will hear how one school has done just this! They have been able to bring in community experts and resources to teach families home routines, discipline, safety, fiscal management, and healthy choices through food, engagement, fun and collaboration. In turn, this has helped to bridge the gap between families and schools regarding trust and communication.
